

CASH-OUT WHITEPAPER

What is Cash-Out?

Cash-Out is a Decentralized Finance (DeFi) platform that enables cryptocurrency financial products.

It's the founding company that develops Cash-Out Wallet and Cash-Out Cards.

OUR MISSION

We're on a mission to become frictionless to make the entire user experience of the ecosystem as simple as possible. Building tools so that a user does not have to leave a platform is a key mission. We will be launching products to complement all the needs within the cryptocurrency markets.

We are developing a fully defi wallet that shall be linked to debit cards. What are we planning to do? Allow crypto users from emerging markets to access their deposits and investments in major coins/tokens and spend them in their favorite local store. Our target are emerging markets. Why? Debit Card linked to digital wallets already exist. However, they are only available in high-income countries leaving part of the globe without access to their functionalities. We are here to redress such unfairness and allow equal access to everyone. We should all be allowed to spend our coins/tokens to buy the things we want or need with a debit card! →

Cash-Out (\$OUT) Token Value

The Cash-Out (\$OUT) Token is the native cryptocurrency that powers the ecosystem of products and governs the decentralized protocols.

Special fees and discounts

Users may use OUT towards transaction fees on the Cash-Out ecosystem of products such as the OUT Wallet and OUT Card. OUT can also be used for discounts on fees.

Governance and Staking

Governance and staking: OUT token holders have the ability to create proposals and vote for protocol changes on the OUT Network. OUT can be bonded within the network to secure the protocol and receive staking rewards.

Transactions and payments

OUT users can utilize OUT to pay at over 60 million merchants worldwide and transfer within the Ethereum & Binance blockchains.

Tokenomics

The Cash-Out Token (OUT) is the fuel and native cryptocurrency of the OUT ecosystem of products and services. The token economics have been designed where the total supply decreases over time the network is utilized.

We are here to guarantee equal access to every crypto user in the world. Hence why, our Tokeonomics are completely in benefit of the community:

Total Supply 200,000,000 \$OUT

·Tokens to be released to the public through presale 80.40% (160,800,000 OUT). Liquidity will be locked up to 2099 in the Presale launching platform. Early Birds will be benefitted with great discount at collaborating with the project

- Team 7% (14,000,000 OUT)

- The OUT Team allocation is to provide the company with funds to use to actively operate its product line. These funds are released 6 months after launch, and are locked in DxSale app.

- Link to locked tokens:

- <https://dxsale.app/app/pages/dxlockview?id=6&add=0x4008cc6C42161de6D36e756224e3f1FEd5c27E73&type=tokenlock&chain=BSC>

- The Founders and Advisors 4.65% (9,300,000 OUT)

- Allocation is designed to compensate the founders and advisors of the project for work performed on the protocols. These funds are released 10 month after launch, and are locked in DxSale app. Link to locked tokens:
<https://dxsale.app/app/pages/dxlockview?id=7&add=0x4008cc6C42161de6D36e756224e3f1FEd5c27E73&type=tokenlock&chain=BSC>

- Airdrop roughly 3% (5,298,000 OUT)

- As part of the OUT marketing strategies, we'll be giving away 2.65% to the people that comply with our Airdrop requirements.

● Ecosystem Reserves 5.3% (10,602,000 OUT)

- Are established to incentivize the network and its participants with rewards and promotions throughout its inception and onwards. This includes development bonuses awarded to partners and the community contributing to Cash-Out and other decentralized products in the future. Ecosystem reserves are provided to continuously grow the platform and its users through various channels, partnerships, grants, and investments. These tokens are locked and released 12 months after Launch. Link to locked tokens:

<https://dxsale.app/app/pages/dxlockview?id=8&add=0x4008cc6C42161de6D36e756224e3f1FEd5c27E73&type=tokenlock&chain=BSC>
